## RELAC Continues Lobbying to Eliminate Unfair Social Security Benefit Reductions

RELAC continues to lobby Congress to eliminate two provisions in the Social Security law that unfairly penalize many of our members – the Windfall Elimination Provision (WEP) and the Government Pension Offset (GPO).

WEP reduces Social Security benefits of LACERA retirees who worked for the County during the time the County did not participate in the Social Security system, or who earned Social Security benefits through other non-County employment. The most common application of this unfair penalty involves employees who worked in the private sector (and thus were covered by Social Security) before they became County employees. LACERA retirees who have 30 years or more of substantial earnings while a participant in the Social Security system are exempt from the WEP penalty. For retirees receiving a low retirement allowance, the WEP reduction in the Social Security benefit cannot exceed 50% of the retirement allowance.

The GPO applies to Social Security benefits of dependents (spouses, widows, and widowers). This unfair penalty reduces their Social Security benefits by an amount equal to two-thirds of the retirement allowance. In some cases, the Social Security dependent benefit is entirely wiped out by the GPO. This occurs when two-thirds of the LACERA retirement allowance is equal to or greater than the Social Security dependent benefit.

The Congressional Research Service reported that as of December 2017 in California alone, more than 249,000 beneficiaries were penalized by the WEP and nearly 99,000 by the GPO.

Legislation to repeal the WEP and GPO has been introduced during each session of Congress with widespread support, but has yet to win passage. RELAC will continue to fight to get relief for our members negatively impacted by these unfair laws.

We also encourage retirees to join the effort by writing their representatives to urge them to support legislation to put a stop to these reductions in Social Security benefits. Twenty-one personal statements from RELAC members describing how they are unfairly penalized by the WEP and GPO, submitted to Congress in 2020, can be found on our website.

## RELAC: OUR HISTORY

RELAC was incorporated on Feb. 5, 1958 as a non-profit organization consisting of retired employees of Los Angeles County (government) and those on the threshold of retirement. Its purpose was to preserve and promote the general welfare of its members. It has done so ever since.

Over the years we have variously been known by two different names: Retired Employees of Los Angeles County (RELAC) and the Alumni Employees of Los Angeles County (AEOLAC). Our organization adopted its final name change on Dec. 20, 1979 when it reverted to RELAC.

RELAC officers were active during the 1960s in promoting the passage of retirement pay packages and the County adoption of the retirement COLA (cost-of-living adjustment). During that same period, they were likewise actively seeking out better health insurance for retirees. As they did so, they were at the same time advancing the revolutionary idea of paying dues via payroll deduction. More importantly, in 1965 there were discussions about "What if the Medicare Bill passes?" It did on July 1, 1966.

RELAC's most important mission today is defending our pensions and health benefits against the relentless attacks of their critics. Three of our directors have historically served on the LACERA Boards of Retirement and Investments, helping to ensure retirees' interests are protected. RELAC also works with the Los Angeles County Board of Supervisors and the California Retired County Employees Association.

While LACERA, County unions, the Board of Supervisors, and the state Legislature all care about retirees' well-being, they have to deal with other competing interests. Only RELAC is exclusively interested in protecting and improving retiree benefits.
